Overview:

The Investment Banking Operations program equips you with the technical & soft skills sought-after by leading back office operations in India's booming financial sector. Master the trade processing, data management, & more!

India's Emergence as a Destination for Investment Banking Backoffice Operations

- India is a preferred destination for companies establishing Global Captive Centres (GCC) for Backoffice operations.
- GCCs handle trade processing, account reconciliation, collateral management, regulatory reporting, & data management.
- 25% of Backoffice Operations employees in India work in the Banking, Financial Services, and Insurance (BFSI) sector.
- Leading investment banks like Citigroup, Standard Chartered, & JP Morgan have established presences.
- Industry estimates that captive centers will create nearly 3.64 million jobs in India.
- Graduates in this industry often need strong technical & soft skills.
- Advance Program in Investment Banking Operations is a unique opportunity to join this booming industry.

Course Objectives:

- Master the core functions of investment banking back offices.
- Learn how to process & settle trades, manage accounts, & ensure regulatory compliance.
- Develop expertise in data management, collateral management, & trade life cycle management.
- Gain the technical skills & soft skills sought after by leading investment banks & captive centers.
- Prepare for a rewarding career in a booming industry projected to create millions of jobs.
